

LET'S BECOME FUNGAL!

Mycelium Teachings and the Arts

Based on Conversations with Indigenous Wisdom Keepers, Artists, Curators, Feminists, and Mycologists

VALIZ, AMSTERDAM **V**

Let's Become Fungal! is more than a book. It's a methodology and a way of thinking that can be activated in communities, networks, and organizations. The author offers a program of twelve collaboratively crafted mycelial workshops to activate each Teaching with a group. From mycelial meditations to Reading Groups to biomimicry exercises, the workshops are suitable for anyone who, after reading this book, wants to become fungal. In addition to the author, the workshops are guided by guest mycologists, (bio)designers, architects, artists, and community organizers. Workshops last one full day and groups can be between ten to thirty people.

Keep an eye on this page for more info and updates on the *Let's Become Fungal!* events schedule and info on how to book a workshop.

Support for the workshops: [Creative Industries Fund NL](#), [Doen Foundation](#)
